ABOUT NORTH STATE

Security Solutions. A Personal Commitment.

Family-owned small business with a local administrative team to assist when needs arise. Founded in 2012, we bring together experienced professionals, proactive service, and a commitment to protecting the people and places that matter most.

Our organization includes two distinct divisions:

North State Security

Traditional security services, including armed and unarmed security officers and mobile patrols.

North State Company Police

Sworn Company Police services designed to help eligible organizations address security concerns, respond to incidents, and maintain a safer environment.

While each division serves a different role, both share the same commitment: dependable service, professional standards, and security solutions tailored to each client's needs.

From a single property to a larger organization with more complex security needs, we take the time to understand your environment and develop a plan that supports your priorities.

A professional, visible security presence can help deter unwanted activity, support daily operations, and give employees, residents, visitors, and customers greater peace of mind.

CLIENT PERSPECTIVE

North State Security does an excellent job overseeing and managing campus security for Kilpatrick. With six buildings across seven acres, we rely on their diligence to ensure that every building remains secure.

Their nightly reports identifying anything out of the ordinary are particularly valuable, enabling management to promptly address potential security concerns and facility-maintenance needs. Every guard assigned to our campus takes the time to get to know our employees and understand the dynamics of our operations.

FOR BUSINESSES & ORGANIZATIONS

A More Secure Environment for Your Business.

Your people, property, and daily operations deserve dependable protection. North State Security Group works with businesses and organizations to develop security plans that address their unique environments, potential risks, and operational priorities.

Our security officers can provide a visible presence, monitor access points, conduct property patrols, assist employees and visitors, and help identify potential security concerns before they become larger problems.

No two facilities are exactly alike. We work to understand your property, daily activity, and concerns before recommending an approach. Our goal is to provide practical security support that complements your operations and helps create a safer environment for everyone on site.

CLIENT PERSPECTIVE

When Allegacy Federal Credit Union first started with North State Security Group, we were in a panic. Our previous security provider notified us on a Friday at midday that it would no longer provide service. I reached out to North State and asked whether the transition could be made over the weekend so that we would have guards in our financial centers by Monday. The answer we received was, “We will do our best.”

In a single weekend, North State Security had every branch we needed covered. That alone was impressive, but it gets better: not only did they cover all of our locations, they placed quality officers in every position. Throughout our years with North State, that is the quality that stands out the most. The caliber of the individual guards they send is the best I have worked with in my years at Allegacy.

Allegacy has recently been making some innovative changes in the way we conduct security at our locations. North State has been extremely helpful and accommodating to our every need.

I recommend North State Security Group without reservation and would be glad to speak with any prospective client about our experience.

Brian Jones

Manager of Corporate Security
Allegacy Federal Credit Union

ECHOTA

FOR RESIDENTIAL COMMUNITIES

Helping Communities Feel More Secure.

A residential community should be a place where people feel comfortable, supported, and at ease. North State Security Group works with homeowners associations, property managers, and residential communities to provide security services that help protect shared spaces and support residents.

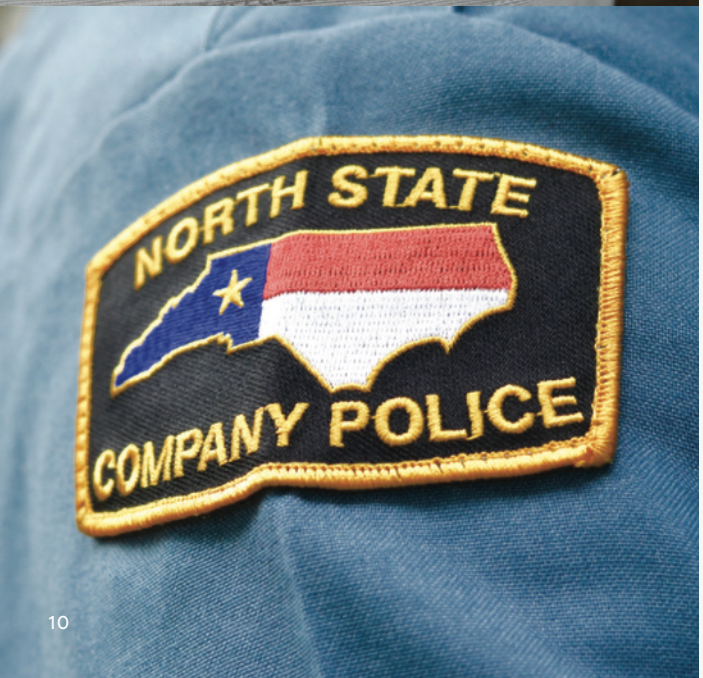
Our mobile patrol and Company Police capabilities can help address a range of community security needs, depending on the services selected and the needs of the property.

CLIENT PERSPECTIVE

North State Security Group provided a huge relief for us. I was tired of working with off-duty Police Officers . . . that was a disaster. The Officers from North State Security Group patrol our properties and respond to night-time emergencies such as home security system alerts. The Officers have good attitudes and even went beyond the call of duty by helping one of our elderly residents with a crisis.

I'm very, very happy with North State Security Group.

Randy Carter
Chief Financial Officer
Echota Resort – Boone, North Carolina



JOIN OUR TEAM

Make a Difference in the Communities We Serve.

A career in security is about more than standing watch. It's about showing up with professionalism, sound judgment, and a genuine commitment to helping others.

At North State Security Group, our team members play an important role in creating safer environments for the businesses, organizations, and communities we serve throughout North Carolina.

We value individuals who bring experience, accountability, integrity, and a strong work ethic to the job. Whether your background is in military service, law enforcement, or security, we're interested in people who take pride in their work and understand the responsibility that comes with protecting others. Our company seeks candidates who are reliable and dedicated and who:

- Aspire to a career in Law Enforcement
- Provide a strong, professional work ethic
- Offer a sense of compassion for clients served

We believe preparation matters. North State Security Group supports professional development through training that helps officers build and maintain the skills needed to serve effectively. Training areas include applicable Private Protective Services Board requirements, OC pepper spray, CPR, and bloodborne pathogens.

Interested in joining a team that takes pride in protecting people and property? Explore career opportunities with North State Security Group.

FAMILY-OWNED. PERSONALLY COMMITTED.

A Family Behind Every Commitment.

North State Security Group was built on a simple belief: great security starts with great relationships. Founded by Chief William Comer and now led by the next generation, our family remains personally invested in the clients we serve and the people who represent our company.

Today, Hope serves as President and Ryan as Vice President of Operations, working together to carry that commitment forward. With family leadership at the heart of the business, we believe in staying connected to our clients, understanding their needs, and maintaining a hands-on approach to the services we provide.

As a family-owned business, our reputation is personal. We take pride in being accessible, responsive, and committed to doing things the right way. When you work with North State Security Group, you're not just choosing a security provider—you're building a relationship with a team that genuinely cares about your people, your property, and your peace of mind.
